

**Elizabeth C. Barton, Esq., Day Pitney LLP** ([ecbarton@daypitney.com](mailto:ecbarton@daypitney.com)) – Beth Barton, a partner resident in Day Pitney's Hartford, Connecticut office, brings more than 25 years of experience in environmental and land use consultation, permitting and litigation. Beth counsels clients on environmental, sustainability and related land use and reuse considerations in business operations, transactions, acquisitions, and project design and development. She also represents clients in environmental administrative proceedings, enforcement actions and third party litigation.

Beth's work involves substantial contact with Federal agencies, including the United States Environmental Protection Agency and the Army Corps of Engineers, and with various state agencies. Beth has worked closely with federal, state and local authorities on innovative development projects, including Blue Back Square, a mixed use redevelopment in West Hartford, Connecticut, and Dominion Bridgeport Fuel Cell Energy, a fuel cell electricity generating facility in Bridgeport, Connecticut, large restoration brownfield projects such as the Brass Mill Center in Waterbury, Connecticut, and smaller urban initiatives, such as the Learning Corridor in Hartford, Connecticut.

Beth has been active in environmental stakeholder groups. She served on Connecticut Governor Malloy's Environmental Transition Team and Connecticut Governor Rell's Environmental Permitting Task Force. Beth was part of an informal group of environmental practitioners taking the initiative to develop a more workable program for brownfield redevelopment in Connecticut. Beth is a member of the Board of Directors of the New England Council, the Connecticut Business and Industry Association's Environmental Policies Council, the National Brownfields Association's Advocacy Network, NAIOP's New Jersey and Connecticut and Suburban New York Chapters, the Board of Directors of the New England Women in Energy and the Environment, the Society of Women Environmental Professionals of Connecticut, and the national Energy Bar Association.
